Examination week is established by the faculty two years in advance, when the academic calendar for the year is enacted.

Core 1 and 2 exams take place when the discussion section has its two meetings in the same place, neither at the lecture time slot nor at the "skills" discussion period slot. It is best for students to check with their Core Professor on scheduled exams times.

Core 5 and 6 have a common final which takes place in the Shen Auditorium at the slot specified for the 10 am MWF classes.
